

Agenda for Pilot's Technical Readout

Presenter: Joe Hahn, ML Solutions Architect

1. Data exploration and cleansing

Notebook 1 §1-2

dealing with obfuscated columns, target variable leak, and missing values

2. Two drivers of outcomes: the customer & the economy

Notebook 1 §3

purchase history, customer demographics, contact fatigue, economic drivers, reporting results per market

3. Building and tuning two ML models

Notebook 2 §1-3

logistic regression & gradient-boosted trees, the feature preprocessors, class imbalance, hyperparameter tuning

4. Model validation

Notebook 2 §4-5

model validation against customer segments & market conditions + feature importance

5. Business value

Notebook 3 §1-3

ROI estimates for a targeted marketing campaign, and recommended next steps
